

## **BEES Network Meetings**

This year the BEES Technology Network meetings are combined into ATIA and FETC. The FDLRS staff and district/regional LATS will meet together on Wednesday evening in general and break-out sessions, and again on Friday morning in size-alike sessions. The topics include updates in service delivery and overall goals to improve the quality of FAPE and Specially Designed Instruction related services in Florida. This includes how these services are a part of a multi-tiered system of supports. A discussion on barriers and solutions will start on Wednesday. FDLRS staff and LATS will meet again in size-alike groups on Friday to continue the discussion on barriers & solutions after having attended some of the sessions and events at ATIA and FETC.
